RESULTS FROM OPERATIONS

During the year under review, the Company, on a Stand alone basis, recorded a revenue of Rs.2,183.17 lakhs (previous year Rs.1,240.87 lakhs) which includes profit of Rs.607.83 lakhs on sale of equity shares of Evotec (India) Private Limited (earlier known as Research Support International Private Limited), erstwhile wholly owned subsidiary of the Company. Consequently the profit before tax for the year was Rs.1,030.77 lakhs (previous year Rs.412.77 lakhs) and profit after tax was Rs.765 lakhs (previous year Rs.341.34 lakhs).

Secondly, the consolidated revenue of the Company was Rs.7,423.77 lakhs (previous year Rs.6,760.57 lakhs) and the profit after tax is at Rs.1,182.68 lakhs (previous year Rs.452.53 lakhs). This is mainly in view of the profit on sale of equity shares as stated above.

During the year under review, the Company has transferred 2,54,94,000 equity shares of Rs.2 each i.e. 70% of the paid-up equity capital of Evotec (India) Private Limited to Evotec AG for Rs.1,117 lakhs. Consequently Evotec (India) Private Limited and its subsidiary Evotec - RSIL Limited ceased to be subsidiaries of the Company w.e.f. September 01, 2009 and accordingly the consolidated financial statements of the Company includes the financials of Evotec (India) Private Limited and its subsidiary, Evotec – RSIL Limited upto August 31, 2009. In view of above and w.e.f. September 01, 2009 the Company is not in the day to day management of Evotec (India) Private Limited and its subsidiary Evotec – RSIL Limited.

DIVIDEND

During the year under review, the Board of Directors had declared and paid an interim dividend of Rs.7.50 per equity share (75%) for the financial year 2009-10 aggregating to Rs.171.99 lakhs. Your Directors also recommend a final dividend of Rs.7.50 per equity share (75%) for the year ended March 31, 2010. The total Dividend for the financial year 2009-10 will amount to Rs.15 per equity share (150%).

TRANSFER TO RESERVE

Your Directors propose to transfer Rs.100 lakhs to General Reserve out of the amount available for appropriations and an amount of Rs.2,235.77 lakhs is

proposed to be retained in the Profit and Loss Accounts for the financial year 2009-10

CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been made as per the Listing Agreement with the Stock Exchange and the relevant Accounting Standards issued by the Institute of Chartered Accountants of India. The consolidated financial statement of the Company for the financial year 2009-10 includes Aegean Properties Limited, Fermenta Biotech Limited, Fermenta Biotech (UK) Limited, G.I. Biotech Private Limited and VasKo Glider s.r.o and the financial statements of Evotec (India) Private Limited and its subsidiary Evotec-RSIL Limited is up to August 31, 2009.

MANAGEMENT DISCUSSION AND ANALYSIS

The Company's pharmaceutical operations are mainly pursued through its subsidiary, Fermenta Biotech Limited (FBL) which is in the business of manufacturing and marketing bulk drugs and enzymes. In addition, your Company is also engaged in treasury operations, renting properties, motion film production and distribution.

The Company carried out the Drug Discovery and Development Services through its subsidiaries, Evotec (India) Private Limited and its subsidiary Evotec-RSIL Limited up to August 31, 2009. Pursuant to divestment of 70% equity shares by the Company in Evotec (India) Private Limited, Evotec (India) Private Limited and its subsidiary Evotec-RSIL Limited ceases to be subsidiaries of the Company with effect from September 01, 2009.

Pharmaceuticals – Manufacturing and Marketing:

- i. FBL has recorded a total revenue of Rs. 4,831.44 lakhs (previous year Rs. 3,710.51 lakhs) with a growth of 30% and the profit after tax of Rs. 418.73 lakhs (previous year Rs. 160.87 lakhs) witnessed a growth of 160%.

The overall sales of bulk drugs touched to Rs. 4,215 lakhs showing a growth of 37% year on year. The turnover of Vitamin D3 showed marked improvement in the year under review. Prior to 2009-10 68% of the bulk drugs revenues were accounted by Phenyramidol with Vitamin D3

contributing 31%. During the year 2009-10, 56% of the bulk drugs revenues were accounted for from Vitamin D3 and its formulations indicating a shift in the product contribution based on the renewed demand supply situation in the respective markets.

The total sales of biotech divisions in the year 2009-10 was Rs. 466 lakhs (previous year Rs.310 lakhs) showing a growth of 50%. FBL's conventional enzyme products mainly used in the manufacture of antibiotic intermediates continue to face challenges from the generic players both domestic as well as international, resulting in decrease in sales in 2009-10 to Rs.195 lakhs, a 27% decrease on a sale of Rs.268 lakhs in the previous year of 2008-09. However, trial scale sale of a Novel Penicillin G Acylase developed by FBL for synthesis of final semi synthetic Penicillin APIs' in 2009 -10 lifted the enzyme division turnover in the current year to Rs. 466 lakhs as compared to Rs.310 lakhs in the previous year with a growth of 50% as stated above.

ii. Manufacturing and regulatory approvals

Year 2009 - 10 saw good progress in FBL's Facility Certifications and product Compliance goals.

Key highlights include:

- WHO – cGMP
- ISO 9001:2008
- ISO 14001:2004
- OHSAS 18001:2007

Important Product Certifications include:

- EDQM – CEP for Vitamin D3
- Kosher & Halal Certifications
- HACCP

iii. Facilities expansion

With the increased volumes driven by sales successes, especially with the Vitamin D3 portfolio, FBL has reached the point where its current API facility in Kullu has achieved near full capacity utilization. In order to provide a manufacturing base from which FBL can build for its future and in the short term supply the rapidly accelerating demand for its Vitamin D3 products, FBL has acquired land and begun construction of manufacturing facility

at Dahej SEZ; Gujarat The new manufacturing site will not only help FBL in meeting the growing demand of Vitamin D3 but also provide a sound platform for building its NPGA enzyme capacities as FBL develops these product opportunities as well. Dahej Plant is expected to become operational by March 2011.

Drug Discovery & Development Services:

Revenue amounting to approximately 2,90,000 Euros was achieved by Evotec (India) Private Limited during the period from April 1, 2009 to August 31, 2009. New projects were undertaken with Bayer CropSciences, Novartis, Boehringer Ingelheim and Chugai. The collaboration with Chugai marked our first entrance into the highly competitive and challenging Japanese market. Post divestment of 70% of the Company's equity holding in Evotec (India) Private Limited to Evotec AG, the Drug Discovery & Development Services carried by the Company through Evotec (India) Private Limited and its subsidiary Evotec-RSIL Limited no longer forms part of the Company's activities with effect from September 01, 2009.

Your Company's entertainment activities are currently into pre-production of a new feature film in Hindi which is expected to commence its production shortly.

Exports:

FBL continues to increase its exports by introduction of new products and expanding its market reach. FBL enjoys a presence in over 22 countries like US, UK, Germany, Belgium, Netherlands, China, Brazil, Spain, France, Mexico, Switzerland, Turkey, Saudi Arabia, Iran, Israel, New Zealand & Sri Lanka. FBL supplies products to more than 200 companies across 15 major Indian cities. Amongst the new markets in European Union, business was initiated in Spain and Belgium.

INDUSTRY STRUCTURE and DEVELOPMENTS:

The industry structure, strength and development in relation to Manufacturing, Drug Discovery and Development Services and Entertainment activities are reviewed, as under:

Pharmaceuticals - Manufacturing and Marketing:

The Indian pharmaceutical industry has shown impressive growth over the last few years and has become one of the sunrise sectors of the Indian

economy. A highly organized sector, the Indian pharmaceutical industry is estimated to be worth \$4.5 billion, growing at about 8% to 9% every year. The pharmaceutical industry in India ranks very high in Third World countries, in terms of technology, quality and range of medicines manufactured. Globally the Indian pharmaceutical industry ranks fourth in terms of volume, 13th in terms of value and produces 20% to 24% of the world's generic drugs (in terms of value).

Drug Discovery and Development Services:

Protracted drug discovery development programmes, prolonged regulation-mandated testing, complex review processes, rapidly escalating R&D expenditures and competition are compelling pharmaceutical companies to outsource various services to cost effective and highly skilled destinations in Asia.

India's total contract research revenues amount to just USD 75 million, but is expected to grow at 23.6% CAGR, hitting USD 175 million by end 2010. India has emerged as an attractive destination for outsourcing research services owing to its low cost manufacturing, lower cost of R&D personnel, lower capital and operational costs for quality infrastructure of international standards.

Entertainment:

The Indian Media and Entertainment (M&E) industry stood at US\$ 12.9 billion in 2009 registering a 1.4 per cent growth over last year, according to a joint report by KPMG and an industry chamber. Over the next five years, the industry is projected to grow at a compound annual growth rate (CAGR) of 13 per cent to reach the size of US\$ 24.04 billion by 2014, the report stated.

CONCERNS AND THREATS:

Pharmaceuticals – Manufacturing and marketing:

As the Company is expanding its presence in providing novel enzyme solutions for β lactams and Cephalosporin antibiotics, it becomes important to create awareness about these emerging technologies. Though, there has been clear shift of approach from environmental regulatory bodies towards "pollution free", enzymatic processes, the process of transformation is relatively slower. FBL needs to strengthen its product pipelines in biotech and bulk drugs segments. It also needs to commercialize its enzyme for conversion into

β lactams and Cephalosporin antibiotics.

Due to poor IPR regime and ease of reverse engineering, few of the customers may short circuit a legitimate technology, leading to loss of potential opportunities. There is also a greater commitment from countries like China to develop and promote indigenous technologies which could compete with FBL's technologies.

Drug Discovery and Development Services:

Since drug discovery and development activity is high resource intensive with low success rate, most foreign companies look at India and other Asian countries as alternative research outsourcing destinations. Hence global players are looking for these kind of collaborative opportunities to spruce up their pipelines and cut timelines to market and reduce costs associated with drug discovery and development.

It is clear that entertainment and media industry may face various IPRs and cyber law issues in future. The Information and Communication Technology (ICT) may also bring certain novel challenges before them. Barring few high production costs and marginal returns have been the concerns for most of the entertainment entities.

OPPORTUNITIES AND OUTLOOK:

FBL has developed a novel Penicillin G Acylase which is having a potential to replace traditional chemical route for synthesizing antibiotics. The product has been jointly patented by the Company to protect and maintain its exclusive presence in the market. FBL also intends to continue its R&D program to generate better intellectual property and to remain competitive and provide novel and better products to the customers.

FBL continues to focus on adding new products in its biotech and APIs divisions. A visible and growing awareness about usage of Vitamin D3 and its benefits among the physicians and consumers is now concreted with year on year growth in Vitamin D3 sales. The application areas of Vitamin D3 in food, feed and nutritional products seem to be one of the major growth drivers. Given the niche of this product there is scope for FBL to capitalize and consolidate Vitamin D3 business in emerging economies.

Auditors' Report

To

The Members of DIL Limited

1. We have audited the attached balance sheet of DIL Limited ('the Company') as at March 31, 2010 and also the profit and loss account and the cash flow statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 (as amended) issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
4. Further to our comments in the Annexure referred to above, we report that:
 - i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - iii. The balance sheet, profit and loss account and cash flow statement dealt with by this report are in agreement with the books of account;
 - iv. In our opinion, the balance sheet, profit and loss account and cash flow statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956.
 - v. On the basis of the written representations received from the directors, as on March 31, 2010, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on March 31, 2010 from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
 - vi. In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;
 - a) in the case of the balance sheet, of the state of affairs of the Company as at March 31, 2010;

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2010 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 15 - NOTES TO THE ACCOUNTS:

1. Background

DIL Limited ('the Company') is in the business of renting properties, motion film production and distribution and in treasury operation. The Company also has strategic investments in subsidiary / associates, Companies primarily dealing in manufacturing of bulk drugs and contract research services.

2. Significant accounting policies:

(a) Basis of preparation

The financial statements have been prepared to comply in all material respects with the notified Accounting Standards by Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis except in case of assets for which provision of impairment is made. The accounting policies have been consistently applied by the Company and except for the changes in accounting policy discussed more fully below in note 2(c) are consistent with those used in the previous year.

(b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

(c) Changes in Accounting Policies

In the previous year, the Company changed (with retrospective effect) its method of providing depreciation on fixed assets from the Written Down Value ("WDV") Method to the Straight Line Method (SLM) at the rates prescribed in Schedule XIV to the Companies Act, 1956 or estimated useful life whichever is higher. The management believes that such change will result in a more appropriate presentation of these assets and will give a systematic basis of depreciation charge more representative of the time pattern in which the economic benefits will be derived from the use of such asset.

Had the Company continued to use the earlier basis of providing depreciation, the charge to the Profit and Loss Account for the previous year would have been higher by Rs. 34.11 Lakhs and the net block of fixed assets would correspondingly have been lower by Rs.34.11 Lakhs. The net surplus of Rs. 179.72 Lakhs and impairment of Rs. 5.94 Lakhs arising out of retrospective recomputation has been recognised in the previous year's Profit and Loss Account.

(d) Fixed assets

Fixed assets are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises cost of acquisition or construction including any attributable cost of bringing the asset to its working condition for its intended use, net of cenvat credit. Borrowing costs relating to acquisition of fixed assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. No borrowing costs were eligible for capitalization during the year.

(e) Depreciation

Depreciation is provided on the original cost, pro-rata to period of use on the straight line method at the rates specified in Schedule XIV to the Companies Act, 1956, or estimated useful life, whichever is higher. (refer note 2 (c) above)

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2010 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 15 - NOTES TO THE ACCOUNTS (contd.):

	Estimated useful life (in years)
Building	
On freehold land	58
Leased improvements	30
Plant & Machinery	20
Computers	6
Furniture & Fixtures	6
Vehicles	8

Assets costing below Rs. 5,000 are fully depreciated on installation.

(f) Intangible Assets

Costs relating to patents and licenses, which are acquired, are capitalized and amortized on a straight-line basis over their useful lives.

Film rights	5
Computer software	6

(g) Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

(h) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

(i) Employee benefits

Retirement benefits in the form of provident fund and superannuation fund are defined contribution schemes and the Company has no further obligation beyond the contributions made to the respective funds. Contributions are charged to Profit and Loss Account in the period in which they accrue.

Employees are entitled to benefits under the Payment of Gratuity Act 1972, a defined benefit plan. The plan provides for a lump-sum payment to eligible employees at retirement, death, incapacitation or on termination of employment, of an amount based on the respective employee's salary and tenure of employment. The gratuity liability and net periodic gratuity cost is actuarially determined at the year end based on the projected unit credit method after considering discount rates, expected long term return on plan assets and increase in compensation levels. All actuarial gains/losses are immediately recorded to the Profit and Loss Account and are not deferred. The Company makes contributions to a fund administered and managed by Life Insurance Corporation of India ('LIC') to fund the gratuity liability. Under this scheme, the obligation to pay gratuity remains with the Company, although LIC administers the scheme.

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2010 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 15 - NOTES TO THE ACCOUNTS (contd.):

Liability for long term compensated absences are provided for based on actuarial valuation done as per projected unit credit method at the year end.

(j) Revenue recognition

Royalty income is recognised on an accrual basis in accordance with the terms of the relevant agreement.

Interest income on loans and deposits is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable. Income from investments is accrued when the right to receive payment is established.

Revenue from licensing of motion film/Advertising projects (Event management) is recognised in accordance with the licensing agreement or physical delivery of the motion film/ Advertising projects (Event management), whichever is later.

Interest on income tax refund is recognised on receipt of the refund order.

Income from services is recognised on proportionate basis as and when the services are rendered, in accordance with the arrangement entered into as per contracted rates.

(k) Foreign currency transactions

Foreign currency transactions during the year are recorded at rates of exchange prevailing on the date of the transaction. Monetary foreign currency assets and liabilities are translated into rupees at the rates of exchange prevailing on the date of the balance sheet. Non-monetary items which are carried in terms of historical cost denominated in foreign currency and reported using exchange rate at the date of transaction. All exchange differences are dealt with in the Profit and Loss Account. The financial statements of integral foreign operations are translated as if the transactions of foreign operation have been those of the Company itself.

(l) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating lease.

As lessee:

Operating lease payments are recognised as an expense in the Profit and Loss Account on a straight line basis over the lease term.

As lessor:

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the Profit and Loss Account immediately on a straight-line basis over the lease term. Costs, including depreciation and other initial direct costs like brokerage etc are recognised as an expense in the Profit and Loss Account.

(m) Income taxes

Tax expense comprises of current, deferred and fringe benefit tax. Current income tax and fringe benefit tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2010 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 15 - NOTES TO THE ACCOUNTS (contd.):

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Profit and Loss Account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

(n) Provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent assets are not recognized in the books of account of the Company. Contingent liabilities are disclosed by way of notes to accounts.

(o) Earnings per share

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The Company has not issued any potential equity shares, and accordingly, the basic earnings per share and diluted earnings per share are the same.

(p) Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank including fixed deposit (having maturity of less than 3 months), cheques in hand and cash in hand.

(q) Segment Reporting

Identification of segments :

The Company's operating businesses are organized and managed separately according to the nature of services provided, with each segment representing a strategic business unit that offers different services.

Allocation of common costs :

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items :

Includes general corporate income and expense items which are not allocated to any business segment.

Segment Policies :

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2009 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 15 - NOTES TO THE ACCOUNTS (contd.):

3. (a) Interest includes interest on income tax amounting to Rs. Nil (2009-Rs.111.44 Lakhs) received in earlier years refunded back to Income Tax Department.
- (b) During the current year, the Company has executed a Share Purchase and a Shareholders' Agreement (Agreements) on August 31, 2009 with Evotec AG and transferred 2,54,94,000 equity shares of Rs. 2/- each. i.e. 70% of the paid up equity share capital of Research Support International Private Limited (RSIPL) (now known as Evotec (India) Pvt. Ltd.)(EIPL) for a consideration of Rs. 1,117 Lakhs, as a result of which w.e.f. September 1, 2009 EIPL and Evotec RSIL Ltd are no longer subsidiaries of the Company.

In addition, the Company is also entitled to receive an earn out based on achievement of "Earn Out Revenue" during the twelve months period ending on 31st August, 2010 as per the terms stipulated in the aforesaid agreement. Considering the uncertainty of achievement of Milestone based on the present trend in EIPL operations which is dependent on European market, the earn out amount is not ascertainable as on 31st March, 2010 and hence not recognized.

As per the terms of aforesaid agreement EIPL has redeemed the 2,50,000 preference shares of Rs. 10 each together with a premium of Rs. 90 per share subscribed at the time of issue by waiving additional premium as per Preference issue document.

4. (a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances)	16.29	18.24
(b) Contingent liabilities, including amounts not provided, for tax matters in respect of earlier years for which appeals are pending before appropriate authorities	89.10	15.33
(c) Company has invested an aggregate of Rs. 188.51 Lakhs in VasKo Glider s.r.o. Czechoslovakia, a joint venture. Out of the above, Rs. 1.96 Lakhs (Czech Koruna 1 Lakh) is towards basic capital and Rs. 186.55 Lakhs (Czech Koruna 95.24 Lakhs) is towards voluntary additional contribution to capital. VasKo Glider is involved in manufacture of wheelchairs based on Levitation Movement Technology, acquired from the joint venture partner under the Technology transfer agreement with effect from March 18, 2005 and the patent of which is registered in Czechoslovakia in the name of the joint venture partner. The joint venture partner has applied for registration of patent in various countries and the same has been registered in USA, India and Australia.		

The proportionate share in the assets, liabilities, income and expenditure of the above joint venture is based on accounts prepared as per local laws as amended and issued by the Ministry of Finance of the Czech Republic, governing financial statement for business is as follows:-

	March 31, 2010	March 31, 2009
	Rs. in Lakhs	Rs. in Lakhs
i) Percentage of holding	50%	50%
ii) Assets	31.63	53.21

iv) Income	5.03	3.48
v) Expenditure	25.22	24.61
vi) Capital Commitment	-	-
vii) Contingent liabilities	-	-

Management believes that though this investment has long term potential based on the expected exploitation of the joint venture's technology, in view of the accumulated losses of Joint Venture there is substantial erosion in the value of investment and accordingly provision for diminution of Rs.188.51 lakhs has been made in the current year.

Auditor's Report

The Board of Directors
DIL Limited

1. We have audited the attached consolidated balance sheet of DIL Limited ('the Company'), and its subsidiaries (collectively referred to as 'the Group'), as at March 31, 2010, and also the consolidated profit and loss account and the consolidated cash flow statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management and have been prepared by the management on the basis of separate financial statements and other financial information regarding components. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We did not audit the financial statements of certain subsidiaries, whose financial statements reflect total assets of Rs. 218.48 Lakhs as at March 31, 2010, the total revenue of Rs. 889.68 Lakhs and cash outflows amounting to Rs. 6.64 Lakhs for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion is based solely on the report of other auditors.
4. As stated in Note 1(c) of Schedule 18 of the consolidated financial statements, certain associates, whose financial statements reflect the Group's share of total loss of Rs. 24.93 lakhs for the year ended March 31, 2010, have not been audited and have been considered in the consolidated financial statements based solely on the unaudited separate financial statements certified by the management.
5. As explained in Note 1(b) and 2(a) of Schedule 18, the Company's share of assets of Rs. 31.63 Lakhs, revenue of Rs. 5.02 Lakhs and net cash outflows of Rs. 6.85 Lakhs of the joint venture company included in the consolidated financial statements are based on unaudited

financial statements and the consequent impact, if any, of the adjustments that may be required to be made to these financial statements to conform to the accounting principles generally accepted in India and to align accounting policies with those of the Company, is not quantifiable. Our audit report on the consolidated financial statements for the year ended March 31, 2009 was similarly modified in respect of the above matter

6. Except for the matter referred to in paragraph 5 above, where we are unable to comment on the impact, if any, of the adjustments required to be made to these financial statements to conform with the accounting principles generally accepted in India, we report that the consolidated financial statements have been prepared by the Company's management in accordance with the requirements of Accounting Standards (AS) 21, Consolidated financial statements, Accounting Standard (AS) 23, Accounting for Investments in Associates in Consolidated Financial Statements and Accounting Standard (AS) 27, Financial Reporting of Interests in Joint Ventures notified pursuant to the Companies (Accounting Standards) Rules, 2006.
7. Based on our audit and on consideration of reports of other auditors on separate financial statements and on the other financial information of the components, and to the best of our information and according to the explanations given to us and *subject to the matter referred to in paragraph 4*, we are of the opinion that the attached consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (a) in the case of the consolidated balance sheet, of the state of affairs of the Group as at March 31, 2010;
 - (b) in the case of the consolidated profit and loss account, of the profit for the year ended on that date; and
 - (c) in the case of the consolidated cash flow statement, of the cash flows for the year ended on that date.

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2010 AND THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 18 - NOTES TO THE ACCOUNTS:

1 (a) Background

DIL Limited ('DIL' or 'the Company') together with its subsidiaries Fermenta Biotech Limited ('FBL'), Fermenta Biotech (UK) Limited ('FBLUK'), Aegean Properties Limited ('APL'), G.I. Biotech Private Limited ('GI BIO') collectively referred to as 'the Group', is in the business of manufacturing and selling of chemicals primarily bulk drugs and enzymes, renting property, entertainment and utilisation of surplus funds for its treasury operations. The Company's Joint Venture, Vasko Glider s.r.o. Czechoslovakia is in the business of development and manufacture of wheelchairs.

The Company holds 76,77,500 shares (95.97%) of FBL. The Company also has been holding 30,000 equity shares in APL, 3,41,25,000 equity shares in EIPL at the beginning of the year. The Company has executed a Share Purchase and a Shareholder's Agreement (Agreements) on August 31, 2009 with Evotec AG and transferred 2,54,94,000 equity shares of Rs. 2/- each. i.e. 70% of the paid up equity share capital of EIPL for a consideration of Rs. 1,117.71 Lakhs, as a result of which w.e.f. September 1, 2009 EIPL and ERL are no longer subsidiaries of the Company. Accordingly the Company's interest in EIPL and ERL has been accounted as "Interest in Associate Company" in the consolidated financial statements. In accordance with notified Accounting Standard (AS) 27 "Financial reporting of interest in joint venture" the operations of majority owned joint venture are fully consolidated.

These consolidated financial statements have been prepared to meet the requirements of clause 32 of the Listing Agreement with the Stock Exchange.

- (b) The proportionate share in the assets, liabilities, income and expenditure of Vasko Glider a Joint Venture of the Company, based on accounts prepared as per local laws as amended and issued by the Ministry of Finance of the Czech Republic, governing financial statement for business is as follows:-

iii) Liabilities	0.20	0.82
iv) Income	3.43	3.48
v) Expenditure	25.22	24.61
vi) Capital Commitment	-	-
vii) Contingent liabilities	-	-

The above figures are accepted as provided by joint venture and it is not practicable to make adjustment to the financial statement of the joint venture to align with Indian Generally Accepted Accounting Principles, as the information for making such adjustment is not available with the Company.

- (c) The Financial statements of the associates and joint venture used in the consolidation are drawn upto the same reporting date as of the Company. These financial statements have been consolidated on the basis of accounts certified by the Management.

2 (a) Basis of preparation

The financial statements of the group have been prepared to comply in all material respects with the Notified accounting standards by Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956, except for the financial statement of joint venture as on March 31, 2010 which are prepared as per Local Laws, as amended and issued by the Ministry of Finance of the Czech Republic, governing financial statement for business. The financial statements have been prepared under the historical cost convention on an accrual basis except in case for which provision of impairment is made. The accounting policies have been consistently applied by the Company and except for the changes in accounting policies discussed below in notes 2 (d) (ii) are consistent with those used in the previous year.

(b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2010 AND THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

These consolidated financial statements are prepared in accordance with the principles and procedures prescribed by Accounting Standard - 21 'Consolidated Financial Statements' ('AS - 21'), Accounting Standard - 23 'Accounting for investment in Associates in 'Consolidated Financial Statements' ('AS - 23') and Accounting Standard - 27 'Financial Reporting of Interest in Joint Ventures' ('AS- 27') as per Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956 for the purpose of preparation and presentation of financial statements.

The financial statements of the Group have been combined on a line-by-line basis by adding together the book values of items like assets, liabilities, income and expenses after eliminating intra-group balances/transactions and resulting unrealised profits in full for subsidiaries. The 50% share in assets, liabilities, income and expenses as appearing in the financial statements of joint venture have been combined on line-by-line basis after eliminating intra-group balances/transactions and resulting unrealised profits on proportionate basis. The amounts shown in respect of accumulated reserves comprises the amount of the relevant reserves as per the balance sheet of the parent company and its share in the post acquisition increase / (decrease) in the relevant reserve, accumulated deficit of its subsidiaries.

Share of minority interest is adjusted against the profit to arrive at the net profit attributable to shareholders. Minority interest's in share of net assets is presented separately in the balance sheet.

The cost of investment in associates, over the net assets at the time of acquisition of the investment in the associates is recognised in the financial statements as goodwill or capital reserve, as the case may be. Goodwill is tested for impairment annually. The carrying amount of investment is adjusted thereafter in the post acquisition change in the group's share of net assets of the associates. The consolidated profit and loss account includes the group's share of results of the operations of the associates.

(d) The significant accounting policies are as follows:

(i) Fixed assets:

Fixed assets are stated at cost, less accumulated depreciation and impairment losses, if any. Cost comprises cost of acquisition or construction including any attributable cost of bringing the asset to its working condition for its intended use, net of cenvat credit. Borrowing costs relating to acquisition of fixed asset which takes substantial period of time

SCHEDULE 18 - NOTES TO THE ACCOUNTS: (contd.)

to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

The assets held for disposal are stated at lower of net book value and the estimated net realisable value.

(ii) Change in Accounting Policies:

In the previous year, the Company along with its subsidiaries namely EIPL, ERL & APL changed (with retrospective effect) its method of providing depreciation on fixed assets from Written Down Method (WDV) to the Straight Line Method (SLM) at the rates prescribed in Schedule XIV to the Companies Act, 1956 or estimated useful life, whichever is higher. The management believes that such change will result in a more appropriate presentation of these assets and will give systematic basis of depreciation charge more representative of the time in which the economic benefits will be derived from the use of these assets.

Had the group Companies continued to use the earlier basis of providing depreciation, the charge to the Profit & Loss Account for the previous year would have been higher by Rs.128.01 Lakhs and correspondingly net block of fixed assets would have been lower by Rs.128.01 Lakhs. The Net Surplus of Rs.364.83 Lakhs and impairment of Rs.5.94 Lakhs arising out of retrospective recomputation has been recognised in the previous year's profit and loss account.

(iii) Depreciation and Impairment:

a) Depreciation

Depreciation is provided on the original cost, pro-rata to period of use on the straight line method as against written down value method used in previous years, at the rates specified in Schedule XIV to the Companies Act, 1956, or estimated useful life, whichever is higher.

	Estimated useful life (in years)
Building	
On freehold land	30-61
Leased improvements	9-30
Plant & Machinery	5-21
Computers	5-6
Furniture & Fixtures	5-6
Vehicles	8-11

Assets costing below Rs.5,000 are fully depreciated on installation.

b) Intangible Assets

Costs relating to patents and licenses, which are acquired, are capitalized and amortized on a straight-line basis over their useful lives.

Film Rights	5
Computer Software	5-6
Development cost	3

c) Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2010 AND THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 18 - NOTES TO THE ACCOUNTS: (contd.)

(iv) Goodwill

The excess of cost to the Company of its investment in subsidiaries and joint venture over the Company's portion of equity in the subsidiaries and joint venture at the respective dates on which investments in subsidiaries and joint venture were made, is recognised in the consolidated financial statements as goodwill. The Company's portion of equity in the subsidiaries and joint venture is determined on the basis of the book value of assets and liabilities as per the financial statements of the subsidiaries and joint venture as on the date of investment.

Goodwill on consolidation is recorded at cost and is evaluated for impairment at each period end or whenever events or changes in circumstances indicate that its carrying amount may be impaired.

(v) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

(vi) Inventories

Inventories are stated at lower of cost and net realisable value.

Cost is determined as follows:

- a) Stores and spare parts and laboratory chemicals: First-in-first-out method
- b) Raw materials and packing materials: Weighted average method. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- c) Intermediate raw materials, work-in-process and finished goods: Cost includes direct materials determined on the basis of weighted average method and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Inventory of under production film is valued at actual cost incurred or net realisable value, whichever is lower. The cost of production is charged to revenue at the time of first release of the film.

(vii) Employee benefits

- i. Retirement benefits in the form of provident fund and superannuation funds are defined contribution schemes and the Group has no further obligation beyond the contributions made to the respective funds. Contributions are charged to profit and loss account in the period in which they accrue.
- ii. Employees are entitled to benefits under the Payment of Gratuity Act 1972, a defined benefit plan. The plan provides for a lump-sum payment to eligible employees at retirement, death, incapacitation or on termination of employment, of an amount based on the respective employee's salary and tenure of employment. The gratuity liability and net periodic gratuity cost is actuarially determined at the year end based on the projected unit credit method after considering discount rates, expected long term return on plan assets and increase in compensation levels. All actuarial gains/losses are immediately recorded to the profit and loss account and are not deferred. The Company makes contributions to a fund administered and managed by Life Insurance Corporation of India ('LIC') to fund the gratuity liability. Under this scheme, the obligation to pay gratuity remains with the Company, although LIC administers the scheme.
- iii. Liability for long term compensated absences are provided for based on actuarial valuation done as per projected unit credit method at the year end.

SCHEDULE 18 - NOTES TO THE ACCOUNTS: (contd.)

(viii) Revenue recognition

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Excise duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability arisen during the year.

Revenue arising out of profit sharing of joint marketing is recognised on an accrual basis in accordance with the terms of the relevant agreement.

Income from research and development activities is recognised on proportionate basis as and when the services are rendered, in accordance with the arrangement entered into as per contracted rates. Income from projects whose outcome is dependent on successful completion of research (discovery based projects) is recognised on approval from customers. Income from custom synthesis is recognised on dispatch to customer.

Interest income on loans and deposits is recognised on a time proportion basis taking into account the amount outstanding and rate applicable. Income from investments is accrued when the right to receive payment is established.

Interest on income tax refund is recognised on receipt of the refund order.

Revenue from licensing of motion film / advertising projects (event management) is recognised in accordance with the licensing agreement or physical delivery of the motion film / advertising projects (event management), whichever is later.

Income from services is recognised on proportionate basis as and when the services are rendered, in accordance with the arrangement entered into as per contracted rates.

Royalty income is recognised on an accrual basis in accordance with the terms of the relevant agreement.

(ix) Foreign currency transactions

Initial Recognition

Transactions in foreign currencies are recorded in the reporting currency at the exchange rate prevailing between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined .

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting monetary items of the group at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise except those arising from investments in non-integral operations. Exchange differences arising in respect of fixed assets acquired from outside India before accounting period commencing on or after December 7, 2006 are capitalized as a part of fixed asset.

Forward Exchange Contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contracts is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

Translation of Integral and Non-integral foreign operation

The financial statements of an integral foreign operation are translated as if the transactions of the foreign operation have been those of the group itself.

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2010 AND THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 18 - NOTES TO THE ACCOUNTS: *(contd.)*

In translating the financial statements of a non-integral foreign operation for incorporation in financial statements, the assets and liabilities, both monetary and non-monetary, of the non-integral foreign operation are translated at the closing rate; income and expense items of the non-integral foreign operation are translated at exchange rates at the dates of the transactions; and all resulting exchange differences are accumulated in a foreign currency translation reserve until the disposal of the net investment.

On the disposal of a non-integral foreign operation, the cumulative amount of the exchange differences which have been deferred and which relate to that operation are recognised as income or as expenses in the same period in which the gain or loss on disposal is recognised.

When there is a change in the classification of a foreign operation, the translation procedures applicable to the revised classification are applied from the date of the change in the classification.

(x) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating lease.

As lessee:

Operating lease payments are recognised as an expense in the profit and loss account on a straight line basis over the lease term.

As lessor:

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the profit and loss account on a straight-line basis over the lease term. Costs including depreciation and other initial direct costs like brokerage etc are recognised as an expense in the profit and loss account.

(xi) Income taxes

Tax expense comprises of current, deferred and fringe benefit tax. Current income tax and fringe benefit tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the group re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the group will pay normal income tax during the specified period. In the year in which Minimum alternative tax (MAT) credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2010 AND THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 18 - NOTES TO THE ACCOUNTS: (contd.)

by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The group reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

(xii) Provisions, contingent liabilities and contingent assets

A provision is recognised when the group has a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent assets are not recognized in the books of account of the group. Contingent liabilities are disclosed by way of notes to accounts.

(xiii) Earnings per share

Basic earnings are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The Company has not issued any potential equity shares, and accordingly, the basic earnings per share and diluted earnings per share are the same.

(xiv) Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Company can demonstrate: (i) the technical feasibility of completing the intangible asset so that it will be available for use or sale; (ii) its intention to complete the asset and use or sell it; (iii) - its ability to use or sell the asset; (iv) how the asset will generate probable future economic benefits; (v) the availability of adequate resources to complete the development and to use or sell the asset; and (vi) the ability to measure reliably the expenditure attributable to the intangible asset during development.

Any expenditure so capitalized is amortised over their estimated useful lives of three years on a straight line basis.

The carrying value of development costs is reviewed for impairment annually when the asset is not yet in use, and otherwise when events or changes in circumstances indicate that the carrying value may not be recoverable.

During the current year the Company's subsidiary FBL has charged Rs.236.71 Lakhs (2009 - Rs.183.60 Lakhs) to profit and loss account on account of expenses on research and development. Capital Expenditure in the current year on Research and Development amounts to Rs.32.83 Lakhs (2009 - Rs.43.36 Lakhs)

(xv) Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank including fixed deposit (having maturity of less than 3 months), cheques in hand and cash in hand.

(xvi) Segment Reporting

Identification of segments :

The Group's operating businesses are organized and managed separately according to the nature of services provided, with each segment representing a strategic business unit that offers different services.

Allocation of common costs :

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items :

Includes general corporate income and expense items which are not allocated to any business segment.

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2010 AND THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED ON THAT DATE

SCHEDULE 18 - NOTES TO THE ACCOUNTS: (contd.)

Segment Policies :

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.
