

FERMENTA BIOTECH LIMITED

QUALITY POLICY

OUR VISION:

To emerge as an organization committed to offering products and services with the best quality backed by focused research and development to attain a leadership position.

OUR MISSION:

To create a system and nurture it to reach a state of functioning, that would enable us to acquire a state (a currently theoretical concept) of timeless stability and growth.

QUALITY POLICY:

Quality of our product is as much as it is perceived and appreciated by our customer.

CORE VALUES:

- Driving the Business from customer needs.
- Commitment to comply all regulatory requirements.
- Setting a clear vision which is deployed down into coordinated action.
- Using contribution of every person to the maximum.
- Partnering with customers and suppliers (Both internal and external).
- Developing workers to manage and managers to lead.
- Becoming a faster learner and more responsive to market opportunities.
- A commitment of senior management to provide enough resources towards quality and maintaining the statutory & regulatory requirements.
